

TECHNICAL DATA SHEET

PENOSIL Foam Cleaner 929

Cleaning spray for removal of uncured construction foam from tools and surfaces.

- Instant effect
- Efficient cleaning
- Use with spray cap or foam gun

Fields of application

- Cleaning inside and outside of foam gun after use
- Cleaning of clothes and tools from uncured construction foam
- Cleaning of window frames, window sills, doors, jambs, etc. from uncured construction foam during work

Application instructions

Application conditions

Air temperature during use: -10 °C to +30 °C.

Application method

Shake the can vigorously at least for 5-10 seconds. Remove the plastic cap from the can and attach the spray cap. Spray the cleaning agent onto uncured foam, let take effect and wipe if needed. When cleaning a foam gun clean the surface of the gun first. Then screw the foam gun tightly onto the can and spray the cleaning agent to clean the inside of the gun. Wait a couple of minutes and spray again to finish the cleaning process. When working with the gun always keep the can upside down.

Cleaning

Cover with inert absorbent (e.g. sand), collect and place in a suitable container or let vaporize.

Technical data

Solvent: acetone

Propellant: propane, isobutane

Colour

Colourless.

Package

650 ml aerosol can, content 500 ml, 12 pcs in a box

Storage conditions and shelf life

Guaranteed shelf life is 24 months from production date if stored in an unopened packaging in a cool and dry place at +5 °C to +30 °C. Do not expose to temperature over +50°C, do not keep near heat sources or in direct sunlight. Store and transport in upright position. Secure cans before transport.

Limitations

- Not suitable for removal of cured PU foam.
- Please observe the expiration date!
