

**CHARACTERISTICS**

- Contains solvents
- Does not drip
- Ready-to-use transparent gel

**APPLICATIONS**

- Suitable for removing cured sealant residues like silicone, hybrid and MS polymer, acrylate and polyurethane.
- Compatible with most surfaces such as all metals and various synthetic materials (test beforehand).

**TECHNICAL CHARACTERISTICS**

Density (g/ml)	0.8
Consistency	Gel
Smell	Neutral
Application temperature	+5°C - +30°C
Flash point (CC, degrees C)	75
Shelf life of unopened product	60 months

**PACKING AND COLOURS**

**12 x bottle with brush 100ML/box - 4092 pieces/pallet**

Transparent

**METHOD OF USE****Preparation**

- It is recommended to carry out tests on every surface before use.
- Shake vigorously before use.

**Application**

- Apply Silicone Remover abundantly to the cured residues.
- Leave the product on for 30 to 60 minutes (possibly longer for harder sealants).
- Carefully remove the residue with a plastic scraper.
- Repeat the treatment if necessary.
- Rinse the dried Silicone Remover residues with soap and water.

**SAFETY**

Consult the safety information on the packaging and the safety data sheet for more information.

This technical data sheet replaces all previous editions. The data on this sheet have been compiled according to the last laboratory report. Technical characteristics can be changed or adapted. We are not responsible for any incomplete information. Before use, one needs to ensure that the product is suitable for his application. Therefore, tests are necessary. Our general conditions apply
